

Ace Sanitary

Ace Sanitary is a manufacturer and supplier of premium flexible hose products for the sanitary and ultra-pure manufacturing markets. Through innovation and technology, Ace Sanitary has secured fitting technology patents that set us apart from all other sanitary flexible product manufacturers. It is our focus to bring the highest quality product, combined with outstanding customer service and innovative thinking to the sanitary and ultra-pure manufacturers' doorstep. With the assistance of quality distribution channels, Ace Sanitary provides our products and services to industries throughout North America, Europe, and Asia. At Ace, we believe in a FLEXIBLE Hose products system, which assists our manufacturers with identifying a base line requirement, fulfillment, and compliance to the applicable standard, reporting and measurement for success.

We service the Food, Beverage and Dairy, Cosmetic, Pharmaceutical and Bio-tech manufacturing markets with our FDA-Compliant products. We specialize in understanding the processes of our customers and providing proven-engineered solutions to meet those applications. Our Ace Flex-Rite and Seal-Rite sanitary hose products are specifically designed to meet the needs of these industries.
