

Baumer

The Baumer Group is one of the worldwide leading manufacturers of sensors, encoders, measuring instruments and components for automated image-processing. As an owner-managed family business, we employ about 2900 workers worldwide in 39 subsidiaries and 19 countries. Our customers include small, highly specialized plant and machine construction companies, large industrial enterprises and groups of companies operating at global level. The best in their field. In Europe and throughout the world. For over 70 years.

CombiLyz AFI4
