

+GF+

GF Piping Systems is the leading flow solutions provider across the world. They enable the safe and sustainable transport of fluids. GF's business is driven by maintaining industry-leading sustainability levels, innovating through digitally enabled solutions, and investing in a culture built on performance, learning, and caring.

GF comprises four divisions: GF Piping Systems, GF Uponor, GF Casting Solutions, and GF Machining Solutions.

INLINE ROTOR FLOW

- provides easy access for cleaning, inspection and rotor replacement without powering down
- flexibility with end connections
- injection-molded PVDF body
- Ceramic bearings

ULTRASONIC

- The GF ultrasonic flow meters combine technically sophisticated measurement technology with simplistic mounting, impressive versatility and minimum maintenance. The result: Measuring devices which can be retrofitted and seamlessly integrated without intervention in the piping
