

+GF+

GF Piping Systems is the leading flow solutions provider across the world. They enable the safe and sustainable transport of fluids. Their business is driven by maintaining industry-leading sustainability levels, innovating through digitally enabled solutions, and investing in a culture built on performance, learning, and caring.

Transmitters and Controllers

The 9900 and 9950-X Multi-Parameter Controllers are field-commissioned with a user-specified combination of inputs, outputs and relays using easy-to-install modules within the base unit. The GF transmitters and controllers support GF Flow, pH/ORP, Conductivity/Resistivity, Salinity, Temperature, Pressure, Level, Dissolved Oxygen and devices that transmit a 4 to 20 mA signal with the use of the 8058 iGo® single channel converter.
