

Pulsar is a worldwide leader in ultrasonic instrumentation for wastewater, industrial, and environmental markets. Since 1986 they have developed, manufactured and marketed industrial flow and level monitoring instruments including ultrasonic level transmitters, clamp-on ultrasonic flow meters, and open channel flow meters.

CLAMP ON FLOW METER

- Three easy-to-select transducer options covering 15 mm to 1,200 mm nominal pipe diameters.
- Transducers work on all common pipe materials.
- Standard mounting hardware.
- No wear and tear, and no shutdown to install.
- Analog, pulse, and serial communication options.
- All transducers are approved for use in hazardous locations.
